Close the application and open it again. Enter OTP and other details. Click on Activate.

- b. Secondary Users needs to request Primary User for generating OTP.

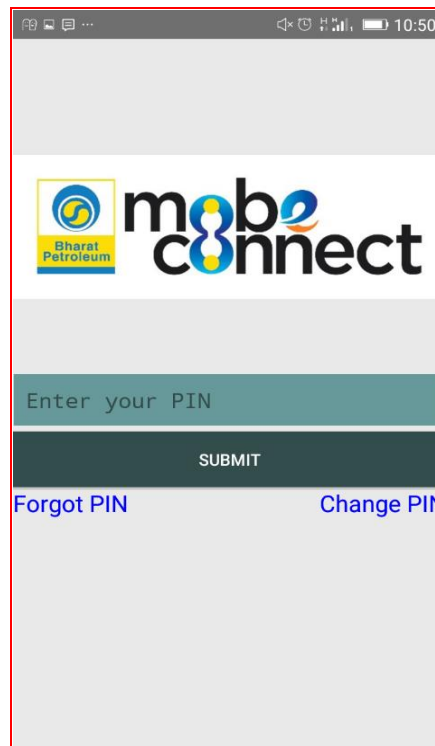

11. Activate the application using received PIN.

A screenshot of the "mobconnect" app interface. At the top, there is a status bar with icons for signal, battery, and time (10:49). Below the status bar, the app's logo is displayed, featuring a blue and yellow circular icon with a stylized "m" and the text "mobconnect" in a bold, sans-serif font. Below the logo, there is a form with several input fields. The first field is labeled "Customer" and contains the number "122289". The second field is labeled "91" and contains the number "9662577192". Below these fields, there is a field with a masked PIN "*****". At the bottom of the form, there is a dark green button labeled "ACTIVATE". Below the button, there is a section titled "Instructions for OTP" in bold. Under this title, there are two lines of text: "Primary Users: [Click Here](#) for OTP" and "Secondary Users: Please contact your Primary User." The background of the app is a light gray color.

12. Set a 4 digit PIN as guided in the screen. You will need this PIN to login into the application for all subsequent access.

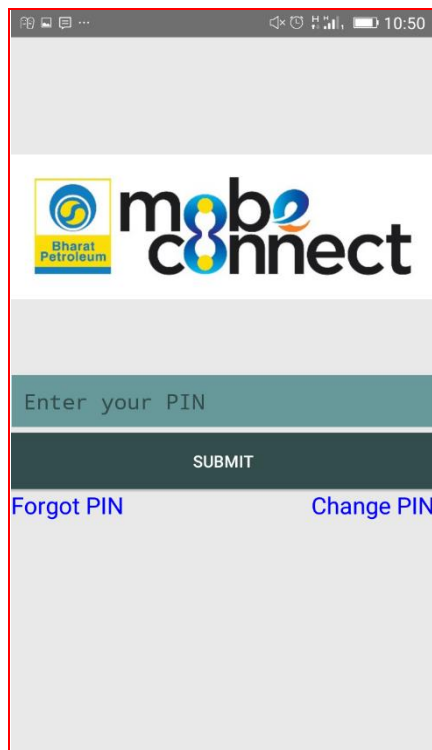

13. Login to the application by keying in the 4 digit PIN set in the above step.

14. After entering successful PIN, user will get Menu screen in case of single Partner or Partner Selection screen in case of Multiple Partners.

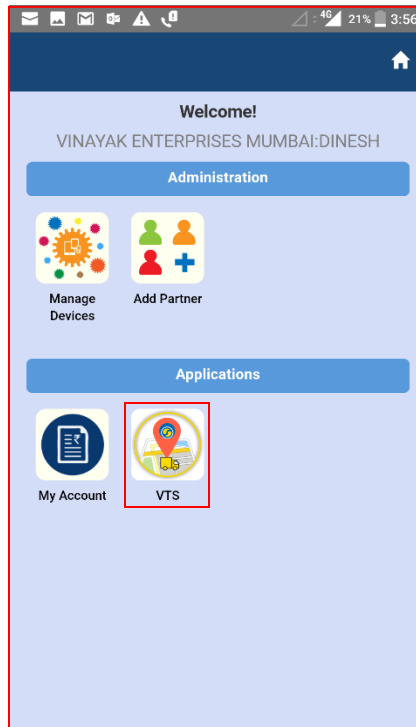

15. For subsequent login (access of mobile application), you will need to enter 4 digits PIN only. If you forget the PIN or want to change it, click on “Forget PIN” or “Change PIN” option available on login screen.

Steps to install VTS Application

16) After you enter 4 digit pin, VTS logo will be visible on welcome page.

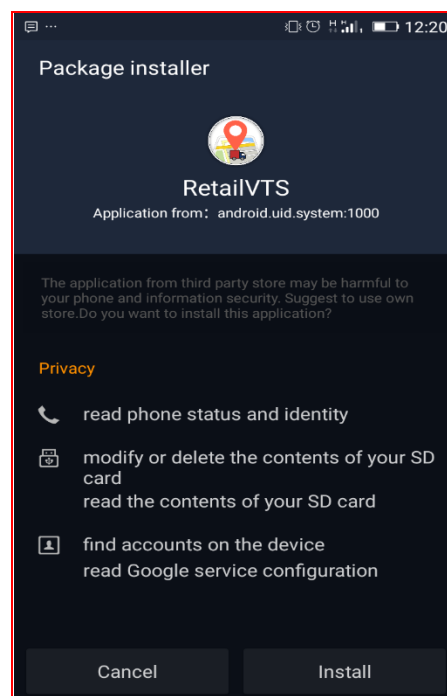

17) On clicking VTS icon, if VTS application is already not installed on your device it will redirect you to download site as shown below.

18) Your download should begin automatically. If you get a warning about the content of download, click **“OK”**

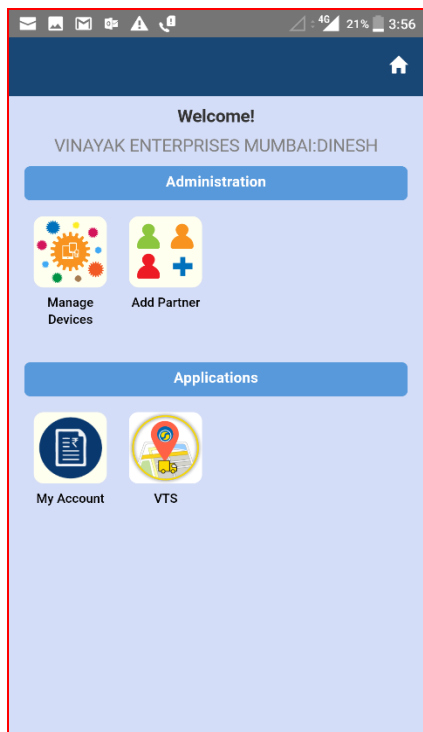

19) Once VTS application is downloaded completely, application installer will show the permissions required by VTS application to work properly. Click on **“Install”** to install the application on the phone.

20) Once the application is installed, open MobeConnect Application.

21) Click on VTS Logo in MobeConnect Application, it will show below screen.

Enjoy the Mobile Application!!!
